

Successful Start for MediaOptions.com

We sold 3 domains in our first 24 hours! Not too bad all things considered. Here is what has been sold so far:

- CertifiedSustainableSeafood.com
- FirstFish.org
- GreenBuildingProducts.net

We have also gotten the listing for SEX.ASIA, which is...

the first time this domain has ever been marketed for sale. We've got big hopes for this domain and can see it bringing a lot of attention and hopefully a big return for its owner!

Lastly, this morning we announced that the next 10 new members to sign up for an account with at least 3 domains added to their account will receive a Free 2 Week Featured Listing! This means you get a spot front and center on our home page!

We wish you all the best success...
